Tien Giang, 15 September 2009

INVITATION

TO ATTEND “ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009”

Dear Sir and Madame,

Energy security is currently the most important issue which absorbs big consideration of all nations in the world. In emerging country Vietnam, energy demand is getting bigger and bigger, placing a risk of energy shortage in coming days. Besides, technological limitation and lack of energy saving management in producing companies are one of big problems in energy using in Vietnam. Especially, small and medium enterprises are using wastefully a large amount of energy in production, which causes high cost of goods sold and remarkably pollutes the environment.

Pacing the below issue, directed by Ministry of Industry and Trade and People’s Committee of Tien Giang Province, the “**Energy conservation and efficiency Mekong Deltat Expo 2009**” is organised in **Tien Giang Province, from 22-24 October 2009**.

Main purpose of the expo is to introduce and trade energy saving technologies, equipments and solutions in production of energy researching institutes, associations, scientific organizations and individuals in order to promote and enhance applications in energy savings, helping producing enterprises reduce manufacturing cost, increase competitive power and contributing to reduce environment pollution.

On behalf of the Organizational Board, Department of Industry and Trade of Tien Giang would like to invite energy researching institutes, associations, scientific organizations and individuals having demands of introducing, transferring, accessing and trading energy saving products and solutions to attend the expo.

With respectfully,

Department of Industry and Trade of Tien Giang Province

Director

DANG THANH LIEM

MINISTRY OF INDUSTRY AND TRADE

SOCIALIST REPUBLIC OF VIETNAM
Independence – Freedom – Happiness

Hanoi, September 15th, 2009

CONGRATULATION LETTER

“ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009”

On behalf of Ministry of Industry and Trade, I warmly welcome the Expo **“ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009”** in Tien Giang province held by Tien Giang Department of Industry and Trade, Ministry of Science and Technology and Energy Saving Office of Ministry of Industry and Trade. Ministry of Industry and Trade highly appreciate all the activities encouraging for energy savings in production as well as daily life.

The expo would be very good opportunity for Vietnam to demonstrate its comprehensive achievements in energy field and technology in manufacturing energy saving equipments in 20 years after “Doi Moi”, advantageous chance for Vietnamese enterprises and businessmen to find counterparts and extend their businesses in energy savings, attributing to the success of the “National energy saving program”.

Ministry of Industry and Trade acclaims domestic and overseas Organizations, Associations and Enterprises to attend and contribute to the expo’s success.

We do hope the expo “ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009” successful and well-held.

Deputy Minister

Ministry of Industry and Trade

Bui Xuan Khu

PEOPLE'S COMMITTEE
TIEN GIANG PROVINCE

SOCIALIST REPUBLIC OF VIETNAM

My Tho City, September 16, 2009

CONGRATULATION LETTER

“ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009”

On behalf of Tien Giang People's Committee, I would like to express my warmly welcome to enterprises, organizations, individuals who attend the “**ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009**” hosted by Tieng Giang Department of Industry and Trade in My Tho City, Tien Giang province from October 22nd to 24th with their products, solutions, projects. The authority of Tien Giang province highly appreciates and warmly welcomes all of other authorities and community's consideration for energy savings in production and daily life.

The “**ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009**” is supposed to make a big contribution in propagandizing awareness of using energy economically and effectively to community, organizations, and enterprises; popularizing energy saving knowledge, solutions and contributing to sustainable development and environmental preservation. The expo would be a good opportunity for managers, researchers and enterprises to exchange their knowledge and promote technology-transferring among each other; to find counterparts in inventing new equipments and solutions which can reduce manufacturing cost and bring more added value to products.

All of us know that energy saving and effective energy using is one of the national strategies of all countries in the world; especially in the circumstance that oil resource is getting more and more scarce. So I do hope that each of attendants and members would have some practical actions in energy saving after the expo. Scientist should enhance more research on new alternative energy; manufacturers should apply modern energy saving equipments and solutions in their production to strengthen competitiveness, and the youth should place more consideration on energy savings issue in their lives...

We do hope the “**ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009**” successful and well-held.

Permanent Deputy Chairman
Tien Giang Province People's Committee
Tran Thanh Trung

PROGRAMME

“ENERGY CONSERVATION AND EFFICIENCY MEKONG DELTA EXPO 2009”

I. BACKGROUND

Energy is decisive factor in human life and development. However, energy in nature becomes exhausted rapidly. People are trying their best to find new energy to make up for on-going shortage. We believe that human all the world should be active in saving power and rush to discover alternative energy in their utility lives.

“Energy conservation and efficiency MEKONG DELTA Expo 2009” is organized on occasion of Conference of Departments of Industry and Trade (DoIT) of Mekong Delta area provinces hosted by Tien Giang DoIT and presided by Ministry of Industry and Trade. About 200 managerial staffs coming from Ministries, People Committees, and Departments of provinces of Mekong Delta area will participate the conference. The successful of the expo will be a good precedent to organize it in next years, at the provinces in Mekong Delta area.

The Expo is organized in My Tho City - Tien Giang Province for the purpose of propagandizing awareness of saving energy to nationwide citizens, supposed to be a good chance for businesses and organizations to broadcast their products and energy-savings solution in daily life and production.

“Energy conservation and efficiency MEKONG DELTA Expo 2009” will be a good opportunity for relative individuals, organizations, corporations to exchange their technology to each other, as well as find new cooperation supporting their businesses, and most of all, to broadcast existing energy-saving products and solutions to citizens.

II. PURPOSE OF THE EXPO

- Enhance sense of energy conservation and efficiency for the authority, enterprise and citizen.
- Introduce and popularize the new power applications, recycling energy, energy saving solutions, efficiency energy products and service in manufacturing and daily life.
- Promote the movement of energy conservation and efficiency in Mekong Delta area in particular and in Vietnam in general.

III. SCHEDULE – VENUE

1. **Schedule:** 3 days, from 22th – 24th October 22nd, 2009
 - Opening: 8h00 – 10h00, Thursday, 22/10/2009
 - Closing: 13h30 – 15h00, Saturday, 24/10/2009

2. **Subject:** “Energy conservation and efficiency MEKONG DELTA Expo 2009”
3. **Size:** There will be about 40 enterprises with 50 booths in the Expo, the enterprises specialize in energy field, energy saving products and services.
4. **Venue:** Conference Center Of Tien Giang Province
6C RACH GAM Street, Ward 1, My Tho City, Tien Giang Province

The Tien Giang Conference Center (TCC) belongs to the office of Tien Giang People’s Committee. TCC is located at the center of My Tho City, comfortable for traveling, accommodation. The TCC is built with international standards, equipped modern facilities. It is the best place for organizing exhibitions, art displays, exchange relations with actors, intellectuals, ceremonies, training courses, and publicizing laws.

- *Outdoor area* is very advantage for exhibiting industrial production lines and equipments, solar energy equipments, boilers and steam distribution system.
- *Indoor area* is for enterprises showing document of high technique achievements, energy saving measures, production line models (priority is given to sponsors).

(Map of booth allocation is attached).

IV. PRODUCTS AND APPROACHING OBJECTS

The expo is an opportunity for **international and national organizations**, which are specialized in energy conservation and energy efficiency, new power applications, recycling energy, energy saving solutions in manufacturing and daily life to introduce and popularize products and services in energy and energy saving sector.

- Introducing enterprises, which are specialized in exploiting natural resources such as coal, oil, gas, and electricity...
- Products to save electricity, oil and petrol, gas, air, water...
- Electricity generator, air compressor, temperature absorb technology from steaming chimney, wind, water, sun.....
- Cooling system, ventilation system, water-spraying system...
- Burning and steaming system used in some sectors such as textile and garment, leather and shoe, paper, plastic...
- Equipments for leisure such as massage machine, oxygen – supplying machine, air refreshing machine, water purifying machine, air purifying machine, civil or industrial water treatment system.
- Safe and energy saving products (gas tank, automatic safety valve...)
- Energy saving architecting model and natural-energy-using model

- Energy-saving construction material such as temperature-guard paint, temperature-guard plank...
- Demonstration research, energy service, energy project,...

V. PROMOTION AND MARKETING

The Organizational Board organizes the program and makes plan for advertisement during the exhibition via:

- Website, email, telephone, fax...
- Other multimedia means such as: Youth Newspaper, Ap Bac Newspaper, Buy and Sell Newspaper, Businessmen Magazine, Industry and Automation Magazine, Energy Saving Newsletter of MoIT, Energy Saving Newsletter of PECSME Program, Vietnam News, Tien Giang Television, Can Tho Television, VTC Television, HTVC Television, Binh Duong Television...
- Outdoor advertisement: banderol, gonfalon at some main roads in My Tho City, exhibition site, and suburban center areas. Besides, pennons will be hung around exhibition site.
- 10,000 invitations will be delivered to enterprises which use energy directly such as textile companies, leather companies, paper mills, plastic enterprises, ...
- Panel (2mx3m) for company advertisement will be high-tech printed on square iron frames by Hiflex technique and put around exhibition site (enterprise has to pay for this).
- Print and publish summary record of attended enterprises
- Airship with name of sponsors will be in expo area.

VI. SPECIFIC RESULTS

The result of the project will be a report on the result of the exhibition:

- Review on the events (Activities, list of stands, number of invitee,..)
- Point out advantages and barriers.
- Recommend the activities for the next year.

VII. EXHIBITION ACTIVITIES

1. Contest on “Energy saving and life”

- Time: before the exhibition
- Attendant: All the young people in Tien Giang Province
- Manner: contest on the knowledge about energy conservation and efficiency, energy renewable and good idea for energy solution. The best contests will be awarded the prize at the closing of exhibition by Organizational Board.

2. “Energy saving achievement” photo exhibition

- Time: during the exhibition
- Manner: Photos of the energy efficiency project, demonstration, energy saving product, energy renewable,.. selected by Organizational Board.

3. “Saving – for future energy” march

- Time: 1 hour, 10-11h00, 22/10/2009, after the opening
- Location: in the city
- Manner: 50 peoples with the uniform and banderol, gonfalon to propagandize the energy conservation.
- Attendant: young people and staffs from others departments of provinces.

4. Seminar on “Saving and efficiency energy use”

- Time: 13h30-17h30, 22/10/2009
- Location: conference room N. 3 - Conference Center Of Tien Giang Province
- Content: Energy conservation and efficiency – the solutions for energy saving; introduction the website of Energy Conservation Center Of Tien Giang Provinc
- Attendant: Representatives Ministry of Industry and Trade, DOIs, Electricity of Tien Giang, scientific research organizations, university, college, enterprises...

5. 12th Conference of Departments of Industry and Trade (DoIT) of Mekong Delta Area

- Time: 8h00-13h00, 23/10/2009
- Location: conference room N. 2 - Conference Center Of Tien Giang Province
- Content: Annual conference of DOIs in Mekong Delta area
- Attendant: Representatives of Ministry of Industry and Trade, PCs, DOIs, Electricity of Tien Giang, typical enterprises... in Mekong Delta area.
