

EUROCHAM FORUM

Handy starters guide

Objective

This is an initiative aimed at SME members, in order to facilitate the setting up of a business in Vietnam by providing you with a platform to share relevant business information and by pooling knowledge and resources to find solutions to your everyday problems.

Example:

For instance, if you are looking for the English translation of a customs declaration and cannot find it online, you can post it on the forum. Someone else, who has already gone through this process, can then easily explain the procedure to obtain it or direct you towards the relevant website. This conversation will then always exist on the Forum and future companies will find it easier to overcome their start-up difficulties.

How to start?
